Or for more details call us today at 1-800-CRM-SALE.

Salesboom.com is not like any other CRM Software provider, we view our customers as business partners and don't only provide our clients a software solution; we provide a complete service including Consulting, Training, Education and Support. As an addition to our already superb customer service and support we offer our clients the option of adding our CRM Concierge Service to their plans. We are the only CRM vendor to offer a CRM Concierge Service which includes additional features, functionality and brings extra peace of mind to our clients.

## What's included?

The Salesboom.com CRM Concierge Service is equipped with many great features and is like having a Salesboom.com Employee sitting at the desk right next to you. Our CRM Concierge Service has been designed to ensure you will receive optimal support and services from the very beginning of your CRM setup right on through to the daily use of your software.

With our CRM Concierge Service Salesboom.com will take care of your CRM Setup and Implementation including initial data migration, business analysis and 10 hours of free web based training. Once the CRM Setup and Implementation process is complete your organization will continue to have a dedicated CRM Consultant and Feature Request Implementation (certain restrictions apply). Your CRM Consultant will be extremely knowledgeable about your business and will grow with your business to ensure success.

## Added Peace of Mind

Our CRM Concierge Service adds peace of mind while operating within the highly reliable Salesboom.com platform with Quarterly Data Backups. These Quarterly Data Backups will be transported securely to your desired location providing you with a copy of all your data acting as a failsafe.
